PUSHPARAJ NAIK

Lead Cloud Architect | AWS | DevOps | Terraform | CI/CD | IoT & Edge Computing

CORE COMPETENCIES

Cloud Architecture & Enterprise Solution Design

AWS Cloud Platform Engineering

Infrastructure as Code (Terraform & Automation)

DevOps & CI/CD Pipeline Engineering

Containerization & Microservices Deployment

Cloud Security & Governance

Network Architecture & Hybrid Cloud Integration

Edge Computing & IoT Architecture

Agile Delivery & Technical Leadership

Configuration Management & Source Control (GitOps)

EDUCATION

- Bachelor of Engineering (Computer Science & Engineering)**
BMS College of Engineering, VTU, Karnataka

AWARDS

- Feather in My Cap Award – Wipro (2014):** Recognized for delivering end-to-end test automation for a Cisco ASA security project with high coverage and accelerated delivery.
- Team Mesh Award – Wipro (2018):** Led DevOps automation implementation for Python-based testing on Cisco HyperFlex storage platforms.

JOB OBJECTIVE

Senior Cloud Architect / Lead Cloud Architect with **22+ years** of experience in designing and delivering enterprise-scale AWS cloud platforms, leading cloud transformation initiatives, and architecting secure, highly available, and scalable solutions using DevOps, Terraform, CI/CD automation & containerization to drive modernization, operational excellence, and business resilience in complex global environments.

PROFILE SUMMARY

- Enterprise Cloud Architecture Leadership:** Seasoned Cloud Architect with 21+ years of experience designing and delivering large-scale AWS cloud platforms ensuring high availability, scalability, security, and enterprise-grade resilience.
- DevOps & CI/CD Transformation Expert:** Proven expertise in building end-to-end CI/CD pipelines and DevOps ecosystems using Jenkins, Azure DevOps, Terraform, and automation frameworks to accelerate delivery and improve deployment efficiency.
- Infrastructure Automation & Modernization:** Strong experience in Infrastructure as Code (Terraform, CloudFormation) and containerization (Docker, ECS, Kubernetes) enabling seamless cloud migration and modernization of legacy systems.
- Security & Monitoring Focus:** Expertise in implementing robust monitoring, logging, and alerting using CloudWatch and Datadog while enforcing enterprise security governance through IAM, WAF, and GuardDuty.

CAREER TIMELINE (Latest 3)

IBM India Pvt Ltd | Test Specialist

ITC Infotech, Bengaluru | AWS Cloud Architect

WORK EXPERIENCE

ITC Infotech, Bengaluru | AWS Cloud Architect | Feb 2025 – Present

Project: Advantest Cloud Migration (GLP, FNO, AOL)

- Cloud Architecture Design:** Designed enterprise AWS cloud architecture ensuring high availability, scalability, security, and alignment with business and AWS best practices for mission-critical applications.
- Network & VPC Engineering:** Built secure multi-tier VPC architecture with public, private, application & database subnets ensuring network isolation & controlled access.
- Containerization & Workload Modernization:** Led application containerization strategy using Amazon ECS and AWS Batch to enable scalable, resilient & efficient workload deployment.
- Data Migration & Hybrid Connectivity:** Designed multi-AZ RDS (MS-SQL) architecture and executed migration planning using AWS DMS along with secure Site-to-Site VPN and Route 53 Resolver integration.
- Infrastructure Automation (Terraform & CI/CD):** Developed Infrastructure as Code using Terraform and integrated CI/CD pipelines using AWS CodePipeline and CodeBuild for automated, consistent deployments.
- Edge Computing & IoT Innovation:** Designed AWS IoT Core and Greengrass-based edge architecture enabling offline processing, telemetry buffering, and secure distributed license processing across customer environments.
- Security & Governance Automation:** Implemented enterprise cloud security controls using IAM, WAF, GuardDuty, and Security Hub with automated policy enforcement and continuous compliance validation.
- Observability & Resilience Engineering:** Established centralized monitoring and alerting using CloudWatch dashboards ensuring proactive incident detection, faster RCA, and improved system reliability across environments.

Wipro Limited, Bengaluru | Growth Path | 2013 - 2025

AWS Cloud Architect | May 2021 – Feb 2025

Project: HPE – K-GPT (AI Document Search Platform)

- **Cloud Architecture Design:** Designed scalable AWS cloud infrastructure for enterprise AI-based search systems ensuring high availability, security, and performance at scale.
- **Infrastructure Automation (Terraform):** Built and managed cloud environments using Terraform enabling consistent, reusable, and automated infrastructure provisioning across multiple environments.
- **Edge & CI/CD Engineering:** Developed AWS Greengrass edge components (Lambda + containers) and integrated CI/CD pipelines using Azure DevOps for seamless deployment automation.
- **Observability & Reliability Engineering:** Implemented CloudWatch and IoT Device Defender monitoring while ensuring disaster recovery, system reliability, and production readiness.
- **Cloud Security & Governance Architecture:** Designed and enforced secure cloud governance using IAM policies, network segmentation, encryption standards, and least-privilege access controls across distributed AWS environments.

AWS Cloud Architect | May 2019 – Apr 2021

Project: Nokia NetAct (Telecom Network Management System)

- Migrated legacy systems to **AWS cloud using Terraform and Ansible**
- Designed and deployed **EC2, Lambda, S3, RDS, ELB, Auto Scaling architectures**
- Built CI/CD pipelines integrating **Git, Jenkins, Maven, Docker**
- Automated infrastructure provisioning using **Terraform scripts**
- Implemented Docker-based deployment workflows
- Enabled monitoring and incident management for production systems
- Managed Agile teams and supported release cycles

Solution Architect | May 2013 – Apr 2019

Project: Cisco DOCSIS Integration

- Designed automated deployment frameworks using **Ansible and AWS CloudFormation**
- Built CI/CD pipelines using Jenkins and Git
- Developed Python automation scripts for AWS API operations
- Implemented Master-Slave Jenkins architecture for scalability
- Supported performance, scalability, and HA testing
- Worked closely with Dev and QA teams for release readiness

Test Specialist | IBM India Pvt. Ltd (Ericsson Client) | Aug 2010 – Mar 2013

- Managed UAT, staging, and production builds
- Provided 24/7 operational support
- Conducted system testing and validation

Senior Test Engineer | Capgemini (Aricent Group) | Feb 2006 – Jul 2010

- Worked on VoIP/SIP telecom deployments
- Performed onsite installation and customer support (France, Germany)
- Managed system integration and testing

Analyst | Verizon Data Services | Sep 2005 – Jan 2006

- Test framework development using TCL/Expect
- Basic call testing and validation

Project Engineer | Apr 2004 – Sep 2005 | Wipro Technologies

- Test automation and SIP endpoint testing
- Lab administration activities

CERTIFICATIONS

- AWS Certified Cloud Practitioner (2023)
- AWS Certified Solutions Architect – Associate (2023)

- Google Cloud Professional Cloud Architect (2023)

TECHNICAL SKILLS

Cloud Platforms: AWS (EC2, EKS, ECS, Lambda, S3, RDS, VPC, Route53, CloudFront, IAM, WAF, CloudWatch, SNS, SQS, EventBridge, Glue, DMS)
DevOps Tools: Jenkins, Azure DevOps, GitLab CI/CD, GitHub Actions
IaC & Automation: Terraform, CloudFormation, Ansible
Containers: Docker, Kubernetes, Amazon ECS, EKS
Programming/Scripting: Python, Shell Scripting
Monitoring & SRE: Datadog, CloudWatch, Logging & Observability
Networking: VPC Design, VPN, Load Balancers, DNS Architecture
Security: IAM, Security Hub, GuardDuty, WAF, Encryption
SCM Tools: Git, GitLab, Bitbucket

PERSONAL DETAILS

Languages Known: English, Hindi, Kannada
Address: Bangalore, India
