

PUSHPARAJ NAIK

+91-9972088444 | pushparaj.naik@gmail.com

Lead Cloud Architect | AWS | DevOps | Terraform | CI/CD | IoT & Edge Computing

CORE COMPETENCIES

- * Cloud Architecture & Enterprise Solution Design
- * AWS Cloud Platform Engineering
- * Infrastructure as Code (Terraform & Automation)
- * DevOps & CI/CD Pipeline Engineering
- * Containerization & Microservices Deployment
- * Cloud Security & Governance
- * Network Architecture & Hybrid Cloud Integration
- * Edge Computing & IoT Architecture
- * Agile Delivery & Technical

JOB OBJECTIVE

Senior Cloud Architect / Lead Cloud Architect with 22+ years of experience in designing and delivering enterprise-scale AWS cloud platforms, leading cloud transformation initiatives, and architecting secure, highly available, and scalable solutions using DevOps, Terraform, CI/CD automation & containerization to drive modernization, operational excellence, and business resilience in complex global environments.

PROFILE SUMMARY

- * **Enterprise Cloud Architecture Leadership:** Seasoned Cloud Architect with 22+ years of experience designing and delivering enterprise-scale AWS cloud platforms ensuring high availability, scalability, security, and enterprise-grade performance.
- * **DevOps & CI/CD Transformation Expert:** Proven expertise in building end-to-end CI/CD pipelines and DevOps practices using Jenkins, GitLab, Docker, Kubernetes, Terraform, and automation frameworks to accelerate delivery and improve collaboration.
- * **Infrastructure Automation & Modernization:** Strong experience in Infrastructure as Code (Terraform, CloudFormation) and container orchestration (Kubernetes) enabling seamless cloud migration and modernization of legacy applications.
- * **Security & Monitoring Focus:** Expertise in implementing robust monitoring, logging, and alerting using CloudWatch, Prometheus, Grafana, and SIEM tools, enforcing enterprise security governance through IAM, WAF, and GuardDuty.

WORK EXPERIENCE

Source Control (GitOps)
HCC Infotech, Bengaluru | AWS Cloud Architect | Feb 2025 - Present

Project: Advantest Cloud Migration (GLP, FNO, AOL)

EDUCATION

- **Cloud Architecture Design:** Designed enterprise AWS cloud architecture ensuring high availability, scalability, security, and alignment with business requirements. Implemented best practices for mission-critical applications.

Bachelor of Engineering

(Computer Science & Engineering)
BMS College of Engineering,
VTU, Karnataka

- **Network & VPC Engineering:** Built secure multi-tier VPC architecture with public, private, application & database subnets ensuring network isolation & connectivity.

- **Containerization & Workload Modernization:** Led application containerization strategy using Amazon ECS and AWS Batch to enable scalable, resilient & cost-effective workload execution.

- **Data Migration & Hybrid Connectivity:** Designed multi-AZ RDS (MS-SQL) architecture and executed migration planning using AWS DMS along with Amazon S3 and Route 53 Resolver integration.

AWARDS

* **Infrastructure & CI/CD Automation:** Developed Infrastructure as Code using Terraform and implemented CI/CD pipelines with AWS CodePipeline, CodeBuild, and CodeDeploy for automated and consistent deployments.

* **Feature Delivery Cap Award - Wipro (2024):** Recognized for delivering end-to-end test automation for a Cisco ASA security project.

- **DevOps & DevSecOps Practices:** Applied DORA-aligned DevOps practices and integrated security and quality tools such as Trivy, SonarCloud, and JACOPO to ensure secure, reliable, and high-quality releases.

* **Team Mesh Award - Wipro (2018):** Led DevOps automation implementation for a large-scale project.

- **Edge Computing & IoT Innovation:** Designed AWS IoT Core and Greengrass-based edge architecture enabling offline processing, telemetry buffering, and secure license processing across customer environments.

Python-based testing on Cisco HyperFlex storage.

- **Security & Governance Automation:** Implemented enterprise cloud security controls using IAM, WAF, GuardDuty, and Security Hub with automated compliance checks and continuous compliance validation.

- **Observability & Resilience Engineering:** Established centralized monitoring and alerting using CloudWatch dashboards ensuring proactive incident detection and system reliability across environments.

AWS Cloud Architect | May 2021 - Feb 2025

Project: HPE - K-GPT (AI Document Search Platform)

- **Cloud Architecture Design:** Designed scalable AWS cloud infrastructure for enterprise AI-based search systems ensuring high availability, security, and scalability.
- **Infrastructure Automation (Terraform):** Built and managed cloud environments using Terraform enabling consistent, reusable, and automated infrastructure environments.
- **Edge & CI/CD Engineering:** Developed AWS Greengrass edge components (Lambda + containers) and integrated CI/CD pipelines using Azure DevOps for deployment automation.
- **Logging and Monitoring:** Utilized Amazon CloudWatch, AWS CloudTrail, and Splunk to implement centralized logging, proactive monitoring, and operational insights for production environments.
- **Private EKS & API Ingress Architecture:** Architected a private Amazon EKS cluster running behind Network Load Balancers and VPC endpoints (PrivateLink) via Amazon Route 53 and Amazon API Gateway for secure, controlled, and scalable workload management.
- **Cloud Security, Governance & Compliance:** Designed and enforced secure cloud governance using IAM policies, network segmentation, encryption standards, and audit controls across distributed AWS environments, aligned with compliance requirements such as HIPAA, SOX, and GDPR.

AWS Cloud Architect | May 2019 - Apr 2021

Project: Nokia NetAct (Telecom Network Management System)

- * Migrated legacy systems to AWS cloud using Terraform and Ansible
- * Designed and deployed EC2, Lambda, S3, RDS, ELB, Auto Scaling architectures
- * Built CI/CD pipelines integrating Git, Jenkins, Maven, Docker
- * Automated infrastructure provisioning using Terraform scripts
- * Implemented Docker-based deployment workflows
- * Enabled monitoring and incident management for production systems
- * Managed Agile teams and supported release cycles

Solution Architect | May 2013 - Apr 2019

Project: Cisco DOCSIS Integration

- * Designed automated deployment frameworks using Ansible and AWS CloudFormation
- * Built CI/CD pipelines using Jenkins and Git
- * Developed Python automation scripts for AWS API operations
- * Implemented Master-Slave Jenkins architecture for scalability
- * Supported performance, scalability, and HA testing
- * Worked closely with Dev and QA teams for release readiness

PRIOR EXPERIENCE

Test Specialist | IBM India Pvt. Ltd (Ericsson Client) | Aug 2010 - Mar 2013

Managed UAT, staging, and production builds; provided 24/7 operational support; conducted system testing and validation.

Senior Test Engineer | Capgemini (Aricent Group) | Feb 2006 - Jul 2010

Worked on VoIP/SIP telecom deployments; performed onsite installation and customer support (France, Germany); managed system integration.

Analyst | Verizon Data Services | Sep 2005 - Jan 2006

Test framework development using TCL/Expect; basic call testing and validation.

Project Engineer | Wipro Technologies | Apr 2004 - Sep 2005

Test automation and SIP endpoint testing; lab administration activities.

CERTIFICATIONS

- * AWS Certified Cloud Practitioner (2023)
- * AWS Certified Solutions Architect - Associate (2023)
- * Google Cloud Professional Cloud Architect (2023)

TECHNICAL SKILLS

Cloud Platforms: AWS (EC2, EKS, ECS, Lambda, S3, DynamoDB, Aurora RDS, MSSQL RDS, VPC, Route 53, CloudFront, IAM, WAF, CloudWatch, SNS, SQS, EventBridge, Glue, DMS, MGN)

DevOps Tools: Jenkins, Azure DevOps, AWS CodePipeline, AWS CodeBuild, GitHub Actions, ArgoCD

IaC & Automation: Terraform, AWS CloudFormation

Containers: Docker, Kubernetes, Amazon ECS, Amazon EKS

Programming/Scripting: Python, Shell Scripting

Logging and Monitoring: AWS CloudWatch, Splunk, AWS CloudTrail

Networking: VPC design, VPN, load balancers, DNS architecture

Security: IAM, AWS Security Hub, Amazon GuardDuty, AWS WAF, AWS KMS, Secret Manager, ACM

SCM Tools: Git, Bitbucket, GitHub

PERSONAL DETAILS

Languages Known: English, Hindi, Kannada

Address: Bangalore, India
